Including Plots																			 				1

## R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

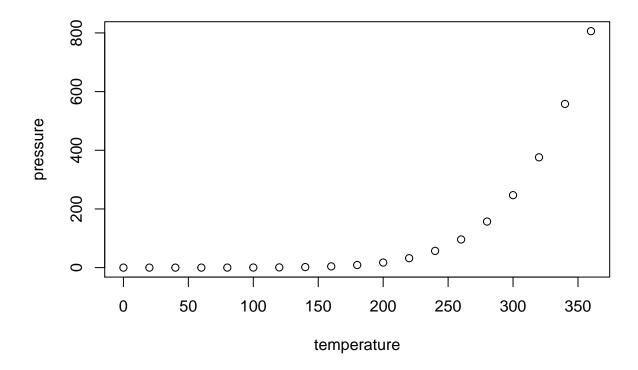

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

#### summary(cars)

```
##
        speed
                         dist
##
    Min.
           : 4.0
                   Min.
                           : 2.00
    1st Qu.:12.0
                    1st Qu.: 26.00
   Median:15.0
                   Median : 36.00
           :15.4
                   Mean
                           : 42.98
##
                   3rd Qu.: 56.00
    3rd Qu.:19.0
    Max.
           :25.0
                   Max.
                           :120.00
```

## **Including Plots**

You can also embed plots, for example:

Note that the  $\mbox{echo}$  = FALSE parameter was added to the code chunk to prevent printing of the R code that generated the plot.

$$\int_0^1 x^2 \ dx$$

import matplotlib.pyplot as plt
plt.plot([1,2,3], [1,5,20])
